Independent Auditors' Report

**The Honorable Supervisor and Town Board
of the Town of Pound Ridge, New York**

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Pound Ridge, New York ("Town") as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town, as of December 31, 2022, and the respective changes in financial position and the respective budgetary comparison for the General Fund and Highway Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the schedules included under Required Supplementary Information in the accompanying table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit for the year ended December 31, 2022 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual fund financial statements and schedules for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2022 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended December 31, 2022.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the Town as of and for the year ended December 31, 2021 (not presented herein), and have issued our report thereon dated January 17, 2024 which contained unmodified opinions on the respective financial statements of the governmental activities, each major fund and the aggregate remaining fund information. The combining and individual fund financial statements and schedules for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2021 financial statements. The information was subjected to the audit procedures applied in the audit of the 2021 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2021.

Town of Pound Ridge, New York

Management's Discussion and Analysis ("MD&A")
December 31, 2022

Introduction

The management of the Town of Pound Ridge, New York ("Town") offers this narrative overview and analysis of the financial activities of the Town for the fiscal year ended December 31, 2022 to readers of the Town's financial statements. This document should be read in conjunction with the basic financial statements, which immediately follow this section in order to enhance the understanding of the Town's financial performance.

Financial Highlights

- ❖ On the government-wide financial statements, the assets and deferred outflows of resources of the Town exceeded the liabilities and deferred inflows of resources at the close of 2022 by \$3,501,440. This reflects an increase in the total net position of \$3,257,529.
- ❖ As of the close of 2022, the Town's governmental funds reported combined ending fund balances of \$1,103,823, an increase of \$1,562,822 from FY 2021.
- ❖ At the end of the current year, unassigned fund balance for the General Fund was \$974,531, which equates to 15.4% of total General Fund expenditures of \$6,326,474 exclusive of Other Financing Uses - Transfers Out of \$290,000. The General Fund reported an ending total fund balance of \$6,197,071 which represents an increase of \$905,440 from FY 2021 ending fund balance of \$5,291,631.
- ❖ At the end of the current year, the Town had outstanding \$128,000 of general obligation bonds and \$3,955,000 of short-term bond anticipation notes. This represents a decrease in general obligation bonds of \$128,000 and an increase of \$25,000 from the FY 2021 bond anticipation notes.
- ❖ For the year ended December 31, 2022, the Town reported in its Statement of Net Position a net pension asset of \$524,367 for its proportionate share of the ERS net pension asset and a liability of \$31,302 for its proportionate share of the PFRS net pension liability. More detailed information about the Town's pension plan reporting in accordance with the provisions of GASB Statement No. 68, including amounts reported as pension expense and deferred inflows/outflows of resources, is presented in the notes to financial statements.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of Net Position presents information on all of the Town's assets, deferred outflows of resources and liabilities, deferred inflows of resources, with the difference between the two reported as Net Position. Over time, increases or decreases in Net Position may serve as a useful indicator as to whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's Net Position changed during the most recent fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (ex., uncollected taxes and earned but unused vacation leave).

The governmental activities of the Town include general government support, public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and interest.

The government-wide financial statement can be found immediately following this section as the first three pages of the basic financial statements.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains three major governmental funds: the General Fund, the Highway Fund and the Capital Projects Fund. Major funds have their information presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances. The Public Parking District and the Special Purpose funds are grouped together as non-major governmental Funds.

Budgetary comparison statements are provided for the General Fund and the Highway Fund. Budgetary comparison statements have been provided for these funds within the basic financial statements to demonstrate compliance with the respective budgets.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Town programs. The Town maintains one type of fiduciary fund, that is known as a Custodial Fund. The Custodial Fund reports resources, not in a trust, that are held by the Town for other parties outside of the Town's reporting entity and, in the case of the Town, primarily to account for real property taxes held for other governments.

The fiduciary fund financial statements can be found in the basic financial section of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements are located following the basic financial statements section of this report.

Other Information

Additional statements and schedules can be found immediately following the notes to financial statements. These include the required supplementary information schedules for the Town's OPEB and net pension liabilities, individual fund financial statements and schedules of "budgets to actual" comparisons.

Government-wide Financial Analysis

In accordance with GASB Statement No. 34, the Town has assets and deferred outflows of resources at a surplus balance related to liabilities and deferred inflows of resources by \$3,501,440 for fiscal year ended 2022. This represents an increase of \$3,257,529 above Net Position for the fiscal year ended 2021. Over time, Net Position may serve as a useful indicator of a government's financial position.

The following table reflects the condensed Statement of Net Position:

**Statement of Net Position
December 31,**

	2022	2021
Current Assets	\$ 7,394,008	\$ 5,444,793
Capital Assets, net	17,269,176	16,998,105
Total Assets	24,663,184	22,442,898
Deferred Outflows of Resources*	2,286,161	3,816,433
Current Liabilities	5,437,204	5,481,139
Long-term Liabilities	10,815,385	14,792,637
Total Liabilities	16,252,589	20,273,776
Deferred Inflows of Resources*	7,195,316	5,741,644
Net Position		
Net Investment in Capital Assets	13,186,176	12,812,105
Restricted	4,509,907	4,125,845
Unrestricted	(14,194,643)	(16,694,039)
Total Net Position	\$ 3,501,440	\$ 243,911

*Detailed information pertaining to the Town's Deferred Outflows/Inflows of Resources is presented in Notes 1 and 3 to the financial statements. The amounts are as follows:

Retirement System	Deferred Inflows/Outflows Amounts			
	Outflows		Inflows	
	2022	2021	2022	2021
Employee (ERS)	\$ 1,296,094	\$ 1,577,680	\$ 1,819,076	\$ 1,720,044
Police (PFRS)	343,648	557,808	328,197	438,496
	1,639,742	2,135,488	2,147,273	2,158,540
Other Post Employment Benefits (OPEB)	646,419	1,680,945	5,048,043	3,583,104
	\$ 2,286,161	\$ 3,816,433	\$ 7,195,316	\$ 5,741,644

The largest component of the Town's Net Position is Net Investment in Capital Assets of \$13,186,176 in 2022 and \$12,812,105 in 2021 which reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to its citizens and consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted Net Position of \$4,509,907 in 2022 and \$4,125,845 in 2021, represent resources that are subject to external restrictions on their use. The restrictions are:

	<u>2022</u>	<u>2021</u>
Open Space	\$ 4,294,140	\$ 3,910,512
Special Revenue Fund		
Trusts	<u>215,767</u>	<u>215,333</u>
	<u>\$ 4,509,907</u>	<u>\$ 4,125,845</u>

The remaining balances represents unrestricted deficits of (\$14,194,643) in 2022 and (16,694,039) in 2021. If available, unrestricted Net Position may be used to meet the Town's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the Town is able to report positive net position balances for the government as a whole as well as for its governmental activities.

**Change in Net Position
Fiscal Year Ended December 31,**

Sources of Revenue for Year 2022 Governmental Activities

Sources of Revenue for Year 2021 Governmental Activities

Sources of Expenses for Year 2022 Governmental Activities

Sources of Expenses for Year 2021 Governmental Activities

Governmental Activities

Governmental activities increased the Town's Net Position by \$3,257,529 in 2022 and increased its net position by \$1,213,641 in 2021. For the fiscal year ended December 31, 2022, revenues from governmental activities totaled \$11,451,845. Tax revenues (\$8,042,641) comprised of real property taxes, other tax items and non-property taxes, represent the largest revenue source (70.2%).

The largest components of governmental activities in 2022 expenses are general government support (25.3%), public safety (22.4%) and transportation (35.3%). Public Safety includes the following: Police, Fire, Safety Inspection and Animal Control. General Government Support includes the following: Town Board, Town Justice, Supervisor, Finance, Town Offices, Clerk, Law, Data Processing, Central Printing and Mailing, Unallocated Insurance, Taxes on Town Property, Judgments and Claims and Contingency. Transportation includes the following: Highway Administration, Garage and Street Lighting.

The major changes are as follows:

Revenues

- Non-property taxes which represent mostly sales tax distribution from the County increased by \$77,181.
- Unrestricted state aid decreased \$60,851 mainly the result of a decrease in the mortgage tax revenue.
- Capital grants increased by \$1,345,929 and operating grants increased by \$308,737.

Expenses

- Public Safety decreased by \$143,486.
- Transportation increased by \$288,581.
- Culture and Recreation decreased by \$272,412
- Home and Community Services increased by 221,804

Financial Analysis of the Town's Funds

Fund Balance Reporting

GASB issued its Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in February 2009. GASB Statement No. 54 abandoned the reserved and unreserved classifications of fund balance and replaced them with five new classifications: nonspendable, restricted, committed, assigned and unassigned. An explanation of these classifications follows below.

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (prepaid amounts) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification is used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law of the State of New York.

Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. The Town Board is the highest level of decision making authority for the Town that can, by the adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, these funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Town Board.

Assigned fund balance, in the General Fund, represents amounts constrained either by the policies of the Town Board for amounts assigned for balancing the subsequent year's budget or the Director of Finance for amounts assigned for encumbrances. Unlike commitments, assignments generally only exist temporarily, in that additional action does not normally have to be taken for the removal of an assignment. An assignment cannot result in a deficit in the

unassigned fund balance in the General Fund. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities and deferred inflows of resources, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets and deferred outflows of resources.

In order to calculate the amounts to report as restricted and unrestricted fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Town's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Town's policy to use fund balance in the following order: committed, assigned and unassigned.

These changes were made to reflect spending constraints on resources, rather than availability for appropriations and to bring greater clarity and consistency to fund balance reporting. This pronouncement should result in an improvement in the usefulness of fund balance information.

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$1,103,823. The unassigned fund balance has a deficit balance in the amount of (\$4,682,094) inclusive of the Capital Project Fund deficit of (\$5,352,594). The nonspendable fund balance component consists of amounts for prepaid expenditures \$607,767. Fund balance of \$4,509,907 is restricted, in its use under the terms of a trust agreement \$215,697 and the land reserve for open space \$4,294,140.

The General Fund is the primary operating fund of the Town. At the end of FY 2022, unassigned fund balance of the General Fund was \$974,531, representing 15.7% of the total General Fund balance of \$6,197,071. When the FY 2022 General Fund budget was adopted, it anticipated to use \$400,000 of fund balance. Actual results of operations resulted in an increase in the Unassigned Fund Balance of \$264,296. Revenues were \$7,521,914, which was \$762,154 or 11.3% more than the final budget. Expenditures exclusive of Transfers Out were \$6,326,474 which was \$286,992 or 4.3%, less than the final budget.

The Highway Fund's total fund balance at the end of the current fiscal year was a deficit of (\$154,664). The deficit increased by \$21,436 from the previous year. Such deficit results from the Town not submitting more Consolidated Local Street and Highway Improvement program reimbursement in the current year.

The Capital Projects Fund has a deficit fund balance of (\$5,352,594). The majority of the capital projects are financed by short-term debt in the form of bond anticipation notes of \$3,955,000 as of December 31, 2022.

General Fund Budgetary Highlights

The appropriations budget for general government support was decreased by \$72,255, public safety was increased by \$69,664, and Employee Benefits were increased by \$113,000 as compared to FY2021.

When the fiscal 2022 budget was adopted, it anticipated using \$400,000 of the unassigned fund balance of the General Fund. Actual results of operations resulted in an increase in fund balance of \$905,440 and an increase in unassigned fund balance of \$264,296 to a balance of \$981,831. Actual revenues for 2022 were \$762,154 more than the final budget and actual expenditures exclusive of Transfers Out for 2021 were \$286,992 less than the final budget.

Some of the major variances were:

- Real Property Tax revenue was more than budgeted by \$66,288 due to an increase in uncollected taxes.
- Non-Property Tax revenue was \$169,785 more than budgeted mostly due to sales tax revenues.
- Employee Benefits expenditures were \$217,906 less than budgeted.

Capital Assets and Debt Administration

Capital Assets

The Town's investment in capital assets for governmental activities at December 31, 2022, net of accumulated depreciation, was \$17,269,176, an increase of \$271,071. This investment in capital assets includes land, buildings, land improvements, machinery and equipment, infrastructure and construction-in-progress.

Major capital asset activity during the current fiscal year included the following, net of accumulated depreciation:

Capital Assets December 31,		
	2022	2021

Total	\$ 17,269,176	\$ 16,998,105

Long-term Debt /Short-Term Debt

At the end of the current fiscal year, the Town had total general obligation debt outstanding of \$128,000, as compared to \$256,000 for FY2021. As required by New York State Law, all bonds issued by the Town are general obligation bonds, backed by the full faith and credit of the Town.

Known as the “constitutional debt limit”, and pursuant to New York State Local Finance Law §104, the Town must limit total outstanding long-term debt to no more than 7% of the five-year average full valuation of real property. At December 31, 2022, the Town five year average full valuation was \$2,075,845,753 thereby establishing a constitutional debt limit of \$145,309,203.

Economic Factors and Next Year’s Budgets and Rates

Revenues increased 7.2% in FY2022 due to the continued economic growth following the COVID-19 pandemic. Mortgage tax revenue decreased 11.5% in FY2022 and the Town management recognizes the expectations for economic growth to stabilize for FY2023 and budget levels are conservatively set to operate at lower revenue levels in the near term due to economic uncertainty. The amount of long-term uncollected taxes remains at high levels and has the potential to affect cash flow for operations and fund balance reserves. Management has a plan in place to address outstanding tax accounts and is monitoring this trend for multi-year forecasting. Interest rates increased in 2022 and management is monitoring borrowing options as well as short-term and long-term investing. Although the Town has significant reserves in the health insurance account, management is aware that health insurance costs need to be monitored closely as uncertainty in the market conditions exist. General and Highway Funds assigned/unassigned fund balance equals 12.4% of expenditures which is within targeted fund balance levels. All of these factors were taken into consideration in developing the FY2023 budget.

Requests for Information

This financial report is designed to provide a general overview of the Town of Pound Ridge’s finances. Questions and comments concerning any of the information provided in this report should be addressed to Steven Conti, Director of Finance, Town of Pound Ridge, 179 Westchester Avenue, Pound Ridge, New York 10576.

Town of Pound Ridge, New York

Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
Year Ended December 31, 2022

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because

Net Change in Fund Balances - Total Governmental Funds	<u>\$ 1,562,822</u>
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay expenditures	1,158,954
Depreciation expense	<u>(887,883)</u>
	<u>271,071</u>
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Real property taxes	<u>(44,886)</u>
The issuance of long-term debt provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position	
Principal paid on general obligation bonds	<u>128,000</u>
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Accrued interest	(49,153)
Changes in pension liabilities and related deferred outflows and inflows of resources	155,242
Retirement incentives and other pension obligations	73,149
Changes in OPEB liabilities and related deferred outflows and inflows of resources	<u>1,161,284</u>
	<u>1,340,522</u>
Change in Net Position of Governmental Activities	<u><u>\$ 3,257,529</u></u>

Note 1 - Summary of Significant Accounting Policies

The Town of Pound Ridge, New York (“Town”) was established in 1788 and operates in accordance with Town Law and the various other applicable laws of the State of New York. The Town Board is the legislative body responsible for overall operation. The Town Supervisor serves as both the chief executive and chief financial officer. The Town provides the following services to its residents: public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and general and administrative support.

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The Town’s significant accounting policies are described below:

A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government, which is the Town, b) organizations for which the Town is financially accountable and c) other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete as set forth in GASB.

In evaluating how to define the Town, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the Town’s reporting entity was made by applying the criteria set forth in GASB, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities which would be included in the financial statements.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the Town as a whole. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used. Governmental activities, which are supported by taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. The Statement of Net Position presents the financial position of the Town at the end of its fiscal year. The Statement of Activities demonstrates the degree to which direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods or services, or privileges provided by a given function or segment, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and (3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The Town does not allocate indirect expenses to functions in the Statement of Activities.

Note 1 - Summary of Significant Accounting Policies (Continued)

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Fund Financial Statements

The accounts of the Town are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The Town maintains the minimum number of funds consistent with legal and managerial requirements. The focus of governmental fund financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is to be presented in a separate column, with non-major funds, if any, aggregated and presented in a single column. Fiduciary funds are reported by type. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the pages following, which briefly explain the adjustments necessary to transform the fund based financial statements into the governmental activities column of the government-wide presentation. The Town's resources are reflected in the fund financial statements in two broad categories, in accordance with generally accepted accounting principles as follows:

Fund Categories

- a. Governmental Funds - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the Town's major governmental funds:

General Fund - The General Fund constitutes the primary operating fund of the Town and is used to account for and report all financial resources not accounted for in other funds.

Special Revenue Funds - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specified purposes other than capital projects. The major Special Revenue Fund of the Town is:

Highway Fund - The Highway Fund is used to account for road and bridge maintenance and improvements as defined in the Highway Law of the State of New York. The major revenue of this fund is real property taxes.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets.

Note 1 - Summary of Significant Accounting Policies (Continued)

The Town also reports the following non-major governmental funds.

Special Revenue Funds:

Special Purpose Fund - The Special Purpose Fund is used to account for assets held by the Town in accordance with terms of a trust agreement.

Public Parking District Fund - The Public Parking District Fund is provided to account for the operation and maintenance of the Town's parking district.

- b. Fiduciary Fund - (Not Included in Government-Wide Statements) - the Fiduciary funds is used to account for assets held by the Town on behalf of others. The Custodial Fund is used to account for real property taxes collected for other governments.

D. Measurement Focus, Basis of Accounting and Financial Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting* as are the Fiduciary Funds. *Revenues* are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within sixty days of the fiscal year end. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are recognized as revenue when the expenditure is made and the amounts are expected to be collected within one year of the fiscal year end. A ninety day availability period is generally used for revenue recognition for most other governmental fund revenues. Property taxes associated with the current fiscal period as well as charges for services and intergovernmental revenues are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to certain claims, retirement incentives and other pension obligations, net pension liability and other post-employment benefit liability are recognized later based on specific accounting rules applicable to each, generally when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Note 1 - Summary of Significant Accounting Policies (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Fund Balances

Cash and Equivalents, Investments and Risk Disclosure

Cash and Equivalents - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and short-term investments with original maturities of less than three months from the date of acquisition.

The Town's deposits investment policies are governed by State statutes. The Town has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The Town is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The Town has entered into custodial agreements with the various banks, which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Investments - Permissible investments include obligations of the U.S. Treasury, U.S. Agencies, repurchase agreements and obligations of New York State or its political subdivisions.

The Town follows the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 72, "*Fair Value Measurement and Application*", which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist.

Risk Disclosure

Interest Rate Risk - Interest rate risk is the risk that the government will incur losses in fair value caused by changing interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from changing interest rates. Generally, the Town does not invest in any long-term investment obligations.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. GASB Statement No. 40, "*Deposit and Investment Risk Disclosures – an amendment to GASB Statement No. 3*", directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized,

Note 1 - Summary of Significant Accounting Policies (Continued)

collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging financial institution's trust department but not in the Town's name. The Town's aggregate bank balances that were not covered by depository insurance were not exposed to custodial credit risk at December 31, 2022.

Credit Risk - Credit risk is the risk that an issuer or other counterparty will not fulfill its specific obligation even without the entity's complete failure. The Town does not have a formal credit risk policy other than restrictions to obligations allowable under General Municipal Law of the State of New York.

Concentration of Credit Risk - Concentration of credit risk is the risk attributed to the magnitude of a government's investments in a single issuer. The Town's investment policy limits the amount on deposit at each of its banking institutions.

Taxes Receivable - Real property taxes attach as an enforceable lien and are levied on January 1st. The Town collects county, town and special district taxes, which are due April 1st and payable without penalty to April 30th. School taxes for the period July 1st to June 30th levied on July 1st and are due on September 1st, with the first half payable without penalty until September 30th and the second half due the following January 1st and payable without penalty until January 31st. The Town guarantees the full payment of the County and school district warrants and assumes the responsibility for uncollected taxes. The Town also has the responsibility for conducting tax lien sales and in rem foreclosure proceedings.

The Town functions in both a fiduciary and guarantor relationship with the County of Westchester and the various school districts located within the Town with respect to the collection and payment of real property taxes levied by such jurisdictions. County taxes are included in the Town's levy and are payable without penalty for thirty days. The County Charter provides for the Town to collect County and school districts taxes and remit them as collected to the respective municipality. However, the Town must remit to the County sixty percent of the amount levied by May 25th and satisfy the balance of forty percent by October 15th. With respect to school districts taxes, the Charter provides that the Town satisfy the warrant of each school district by April 5th. Thus, the Town's fiduciary responsibility is from the date of the levy until the due date of the respective tax warrant at which time the Town must satisfy its obligation regardless of the amounts collected. County and school district taxes collected prior to the satisfaction of the respective warrants are considered a fiduciary activity under the provisions of GASB Statement No. 84, "*Fiduciary Activities*", and therefore have been accounted for within the Custodial Fund.

Other Receivables - Other receivables include amounts due from other governments and individuals for services provided by the Town. Receivables are recorded and revenues recognized as earned or as specific program expenses/expenditures are incurred. Allowances are recorded when appropriate.

Due From/To Other Funds - During the course of its operations, the Town has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of December 31, 2022, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 1 - Summary of Significant Accounting Policies (Continued)

Inventory - There are no inventory values presented in the balance sheets of the respective funds of the Town. Purchases of inventory items at various locations are recorded as expenditures at the time of purchase and year-end balances at these locations are not material.

Prepaid Expenses/Expenditures - Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items using the consumption method in both the government-wide and fund financial statements. Prepaid expenses/expenditures consist of costs which have been satisfied prior to the end of the fiscal year, but represent items which have been provided for in the subsequent year's budget and will benefit such periods. Reported amounts in the fund financial statements are equally offset by nonspendable fund balance in the fund financial statements, which indicates that these amounts do not constitute "available spendable resources" even though they are a component of current assets.

Capital Assets - Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the Town chose to include all such items regardless of their acquisition date or amount. The Town was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives is not capitalized.

Land is not depreciated. Property, plant, equipment and infrastructure of the Town are depreciated using the straight line method over the following estimated useful lives.

<u>Class</u>	<u>Life in Years</u>
Buildings and land improvements	20-50
Machinery and equipment	5-20
Infrastructure	20-50

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental fund financial statements. Capital assets are not shown on the governmental fund balance sheet.

Note 1 - Summary of Significant Accounting Policies (Continued)

Unearned Revenues - Unearned revenues arise when assets are recognized before revenue recognition criteria has been satisfied. In government-wide financial statements, unearned revenues consist of amounts from grants received before the eligibility requirements have been met.

Unearned revenues in the fund financial statements are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The Town has reported unearned revenues of \$368,183 for American Rescue Plan Act funds received in advance in the General Fund. Such amounts have been deemed to be measurable but not "available" pursuant to generally accepted accounting principles.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

The Town has reported deferred inflows of resources of \$397,986 for real property taxes in the General Fund. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

The Town has also reported deferred outflows of resources and deferred inflows of resources in relation to its pension and other postemployment benefit liabilities in the government-wide financial statement for governmental activities. These amounts are detailed in the discussion of the Town's pension and other postemployment benefit liabilities in Note 3E.

Long-Term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects Fund expenditures.

Compensated Absences - The Town does not compensate employees for unused vacation or sick leave upon separation from service.

Net Pension Liability (Asset) - The net pension liability (asset) represents the Town's proportionate share of the net pension liability (asset) of the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System. The financial reporting of these amounts are presented in accordance with the

Note 1 - Summary of Significant Accounting Policies (Continued)

provisions of GASB Statement No. 68, *“Accounting and Financial Reporting for Pensions”* and GASB Statement No. 71, *“Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68”*.

Other Post-Employment Benefit Liability (“OPEB”) - In addition to providing pension benefits, the Town provides health care benefits for certain retired employees and their survivors. The financial reporting of these amounts are presented in accordance with the provisions of GASB Statement No. 75, *“Accounting and Financial Reporting for Postemployment Benefits Other than Pensions”*.

Net Position - Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted net position for the Town includes restricted for open space and special revenue funds.

Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Fund Balance - Generally, fund balance represents the difference between current assets and deferred outflows of resources and current liabilities and deferred inflows of resources. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (prepaid amounts) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification is used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law of the State of New York.

Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to formal action of the entity’s highest level of decision making authority. The Town Board is the highest level of decision making authority for the Town

Note 1 - Summary of Significant Accounting Policies (Continued)

that can, by the adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, these funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Town Board.

Assigned fund balance, in the General Fund, represents amounts constrained either by the policies of the Town Board for amounts assigned for balancing the subsequent year's budget or the Director of Finance for amounts assigned for encumbrances. Unlike commitments, assignments generally only exist temporarily, in that additional action does not normally have to be taken for the removal of an assignment. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive unassigned fund balance. For all governmental funds other than the General Fund, any deficit fund balance is reported as unassigned.

In order to calculate the amounts to report as restricted and unrestricted fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Town's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Town's policy to use fund balance in the following order: committed, assigned and unassigned.

F. Encumbrances

In governmental funds, encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations, is generally employed as an extension of formal budgetary integration in the General and Special Revenue funds. Encumbrances outstanding at year-end are generally reported as assigned fund balance since they do not constitute expenditures or liabilities.

G. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is December 2, 2024.

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 2 - Stewardship, Compliance and Accountability

A. Budgetary Data

The Town generally follows the procedures enumerated below in establishing the budgetary data reflected in the financial statements:

- a) Prior to October 20th, the head of each administrative unit shall submit to the budget officer an estimate of revenues and expenditures for such administrative unit for the ensuing year.
- b) The budget officer, upon completion of the review of the estimates, shall prepare a tentative budget and file such budget in the office of the Town Clerk on or before October 30th.
- c) On or before November 10th, the Town Clerk shall present the tentative budget to the Town Board.
- d) The Town Board shall review the tentative budget and may make such changes, alterations and revisions as it shall consider advisable and which are consistent with law. Upon completion of such review, the tentative budget and any modifications as approved by the Town Board shall become the preliminary budget.
- e) On or before December 10th, the Town Board shall hold a public hearing on the preliminary budget.
- f) After the public hearing, the Town Board may further change, alter and revise the preliminary budget subject to provisions of the law.
- g) The preliminary budget as submitted or amended shall be adopted by resolution no later than December 20th.
- h) Formal budgetary integration is employed during the year as a management control device for General, Highway and the Public Parking District funds.
- i) Budgets for General, Highway and the Public Parking District funds are legally adopted annually on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis. An annual budget is not adopted for the Special Purpose Fund since other means control the use of these resources (e.g., grant awards) and sometimes span a period of more than one fiscal year.
- j) The Town Board has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Town Board. Any modification to appropriations resulting from an increase in revenue estimates or supplemental reserve appropriations also require a majority vote by the Town Board.
- k) Appropriations in General, Highway and the Public Parking District funds lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year pursuant to the Uniform System of Accounts promulgated by the Office of the State Comptroller.

Note 2 - Stewardship, Compliance and Accountability (Continued)

- l) On or before November 20th, the Town Board shall adopt the preliminary budget as originally compiled or it may, by a majority vote, diminish or reject certain items contained therein as prescribed by law.

- m) Formal budgetary integration is employed during the year as a management control device for General, Highway and the Public Parking District funds.

Budgeted amounts are as originally adopted or as amended by the Town Board.

B. Property Tax Limitation

Under New York State Town Law, the Town is not limited as to the maximum amount of real property taxes which may be raised. However, Chapter 97 of the New York State Laws of 2011, as amended ("Tax Levy Limitation Law") modified previous law by imposing a limit on the amount of real property taxes a local government may levy. The following is a brief summary of certain relevant provisions of the Tax Levy Limitation Law. The summary is not complete and the full text of the Tax Levy Limitation Law should be read in order to understand the details and implementations thereof.

The Tax Levy Limitation Law imposes a limitation on increases in the real property tax levy, subject to certain exceptions. The Tax Levy Limitation Law permits the Town to increase its overall real property tax levy over the tax levy of the prior year by no more than the "Allowable Levy Growth Factor," which is the lesser of one and two-one hundredths or the sum of one plus the Inflation Factor; provided, however that in no case shall the levy growth factor be less than one. The "Inflation Factor" is the quotient of: (i) the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the coming fiscal year minus the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, divided by (ii) the average of the National Consumer Price Indexes determined by the United States Department of Labor with the result expressed as a decimal to four places. The Town is required to calculate its tax levy limit for the upcoming year in accordance with the provision above and provide all relevant information to the New York State Comptroller prior to adopting its budget. The Tax Levy Limitation Law sets forth certain exclusions to the real property tax levy limitation of the Town, including exclusions for certain portions of the expenditures for retirement system contributions and tort judgments payable by the Town. The Town Board may adopt a budget that exceeds the tax levy limit for the coming fiscal year, only if the Town Board first enacts, by a vote of at least sixty percent of the total voting power of the Town Board, a local law to override such limit for such coming fiscal year.

C. Capital Projects Fund Deficit

The unassigned deficit in the Capital Projects Fund of \$5,352,594 arise in-part because of the application of generally accepted accounting principles to the financial reporting of such funds. The proceeds of bond anticipation notes issued to finance construction of capital projects are not recognized as an "other financing source". Liabilities for bond anticipation notes payable are accounted for in the Capital Projects Fund. Bond anticipation notes are recognized as revenue only to the extent that they are redeemed. The deficit will be reduced and eliminated as bond anticipation notes are redeemed from interfund transfers from other governmental funds or

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 2 - Stewardship, Compliance and Accountability (Continued)

converted to permanent financing. Other deficits, where no bond anticipation notes were issued or outstanding to the extent of the project deficit, arise because of expenditures exceeding current financing on the projects. These deficits will be eliminated with the subsequent receipt or issuance of authorized financing.

D. Expenditures in Excess of Budget

The following functional expenditures exceeded their budgetary authorizations by the amounts indicated:

General Fund:

General Government Support		
Supervisor	\$	354
Audit		38,540
Tax collection		1,517
Town attorney		20,261
Engineering		3,915
Buildings		78,052
Data processing		11,365
Unallocated insurance		14,392
Judgments and claims		17,389
Public Safety		
Administration		2,427
Communication system		3,423
Animal control		4,632
Health		
Ambulance		5,925
Culture and Recreation		
Parks		17,458
Museum		1,292
Historian		2,650
Celebrations		9,218
Adult recreation		5,513
Home and Community Services		
Waste water		55,516
Water control		6,488
Employee Benefits		
Social security		4,508

E. New Accounting Pronouncement

GASB Statement No. 87, "Leases", established a single model for lease accounting based on the concept that leases are a financing of a "right-to-use" underlying asset. This statement requires a lessee to recognize a lease liability and an intangible right-to-use lease asset and a lessor to recognize a lease receivable and a deferred inflow of resources. The requirements of GASB Statement No. 87 are effective for the Town's fiscal year ended December 31, 2022. The Town has completed its evaluation of the financial impact of GASB Statement No. 87 and determined that the implementation of this standard was not required as it did not have a material impact on its financial statement.

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds

A. Taxes Receivable

Taxes receivable at December 31, 2022 consisted of the following:

Town taxes - Current	\$ 101,709
Tax liens and overdue taxes	<u>482,963</u>
	584,672
Less - Allowance for Uncollected Taxes	<u>(179,591)</u>
	<u>\$ 405,081</u>

Taxes receivable in the fund financial statements are also offset by deferred tax revenues of \$397,986, which represents an estimate of the taxes receivable which will not be collected within the first sixty days of the subsequent year.

B. Interfund Receivables/Payables

The composition of due from/to other funds at December 31, 2022 were as follows:

<u>Fund</u>	<u>Due From</u>	<u>Due To</u>
General	\$ 3,599,229	\$ 177,936
Highway	41,800	902,588
Capital Projects	-	2,668,885
Non-Major Governmental	<u>120,231</u>	<u>11,851</u>
	<u>\$ 3,761,260</u>	<u>\$ 3,761,260</u>

The outstanding balances between funds results mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system and 3) payments between funds are made.

C. Capital Assets

Changes in the Town's capital assets are as follows:

	<u>Balance January 1, 2022</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance December 31, 2022</u>
Capital Assets, not being depreciated:				
Land	\$ 4,106,929	\$ -	\$ -	\$ 4,106,929
Construction-in-progress	<u>350,245</u>	<u>891</u>	<u>190,571</u>	<u>160,565</u>
Total Capital Assets, not being depreciated	<u>\$ 4,457,174</u>	<u>\$ 891</u>	<u>\$ 190,571</u>	<u>\$ 4,267,494</u>

Town of Pound Ridge, New York

Note 3 - Detailed Notes on All Funds (Continued)

	Balance January 1, 2022	Additions	Deletions	Balance December 31, 2022
Capital Assets, being depreciated:				
Buildings	\$ 2,556,435	\$ -	-	\$ 2,556,435
Land improvements	2,676,870	-	-	2,676,870
Machinery and equipment	4,724,255	108,647	-	4,832,902
Infrastructure	30,987,938	1,239,987	-	32,227,925
 Total Capital Assets, being depreciated	 40,945,498	 1,348,634	 -	 42,294,132
Less Accumulated Depreciation for:				
Buildings	1,598,961	36,307	-	1,635,268
Land improvements	1,522,010	37,863	-	1,559,873
Machinery and equipment	3,614,002	246,479	-	3,860,481
Infrastructure	21,669,594	567,234	-	22,236,828
 Total Accumulated Depreciation	 28,404,567	 887,883	 -	 29,292,450
 Total Capital Assets, being depreciated, net	 <u>\$ 12,540,931</u>	 <u>\$ 460,751</u>	 <u>\$ -</u>	 <u>\$ 13,001,682</u>

Depreciation expense was charged to the Town's functions and programs as follows:

General Government Support	\$ 44,395
Public Safety	26,636
Transportation	754,700
Culture and Recreation	<u>62,152</u>
 Total Depreciation Expense	 <u>\$ 887,883</u>

D. Short-Term Capital Borrowings - Bond Anticipation Notes

The schedule below details the changes in short-term capital borrowings.

	Original Issue Date	Maturity Date	Rate of Interest	Balance January 1, 2022	Amount Issued	Redemptions	Balance December 31, 2022
Capital Projects Fund							
Various purposes	6/15/2018	6/9/2023	2.70 %	\$ 1,255,000	\$ -	\$ 150,000	\$ 1,105,000
Various purposes	6/14/2019	6/9/2023	2.70	225,000	-	75,000	150,000
Various purposes	6/12/2020	6/9/2023	2.70	2,450,000	-	250,000	2,200,000
Various purposes	6/10/2022	6/9/2023	2.70	-	500,000	-	500,000
				<u>\$ 3,930,000</u>	<u>\$ 500,000</u>	<u>\$ 475,000</u>	<u>\$ 3,955,000</u>

Liabilities for bond anticipation notes are generally accounted for in the Capital Projects Fund. Bond anticipation notes issued for judgments or settled claims are recorded in the fund paying the claim. Principal payments on bond anticipation notes must be made annually. State law requires that bond anticipation notes issued for capital purposes or judgments be converted to long-term obligations generally within five years after the original issue date. However, bond anticipation notes issued for assessable improvement projects may be renewed for periods equivalent to the

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

maximum life of the permanent financing, provided that stipulated annual reductions of principal are made.

Interest expenditures of \$19,619 and \$17,657 were recorded in the fund financial statements in the General and Highway funds, respectively. Interest expense of \$88,767 was recorded in the government-wide financial statements.

E. Long-Term Liabilities

The following table summarizes changes in the Town's long-term liabilities for the year ended December 31, 2022:

	Balance January 1, 2022	New Issues/ Additions	Maturities and/or Payments	Balance December 31, 2022	Due Within One Year
General Obligation					
Bonds Payable	\$ 256,000	\$ -	\$ 128,000	\$ 128,000	\$ 128,000
Net Pension Liability-ERS	5,728	-	5,728	-	-
Net Pension Liability-PFRS	140,928		109,626	31,302	
Retirement Incentives and Other Pension Obligations	171,789	-	73,149	98,640	56,568
Other Post Employment Benefit Liability	14,218,192	550,334	4,211,083	10,557,443	355,000
	<u>\$ 14,792,637</u>	<u>\$ 550,334</u>	<u>\$ 4,527,586</u>	<u>\$ 10,815,385</u>	<u>\$ 539,568</u>

Each governmental fund's liability for general obligation bonds payable, net pension liability, retirement incentives and other pension liabilities and other postemployment benefit liability payable are liquidated by the General and Highway funds.

General Obligation Bonds Payable

General obligation bonds payable at December 31, 2022 is comprised of the following individual issue:

Purpose	Year of Issue	Original Issue Amount	Final Maturity	Interest Rates	Amount Outstanding at December 31, 2022
Various	2018	\$ 640,000	June, 2023	3.35 %	<u>\$ 128,000</u>

Interest expenditures of \$2,144 and \$6,432 were recorded in the fund financial statements in the General and Highway Funds, respectively. Interest expense of \$6,238 was recorded in the government-wide financial statements.

Retirement Incentives and Other Pension Obligations

The State Legislature enacted Chapter 57 of the Laws of 2010. This chapter authorized local governments, at their option, to amortize a portion of their respective ERS and PFRS contributions beginning in 2010. The maximum amortization amount each year going forward will

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

be determined by the difference between each employer’s effective contribution rate as compared to the System’s overall graded rate. The amortized amounts are to be paid in equal annual installments over a ten year period, although amounts may be prepaid at any time. Interest will be charged at rates which approximate a market rate of return on taxable fixed rate securities of a comparable duration and will be adjusted annually. The Town elected to amortize the maximum allowable ERS and PFRS contributions as noted in the table below.

Year	Original Amount Amortized	Current Year Payments	Balance Due	Due Within One Year
2013	\$ 162,169	\$ 18,458	\$ -	\$ -
2014	251,158	28,341	29,381	29,381
2015	126,344	13,599	28,496	14,027
2016	122,110	12,751	40,763	13,160
	<u>\$ 661,781</u>	<u>\$ 73,149</u>	<u>\$ 98,640</u>	<u>\$ 56,568</u>

Payments to Maturity

The annual requirements to amortize all bonded and retirement incentives and other pension obligations debt outstanding as of December 31, 2022, including interest payments of \$9,365 are as follows:

Year Ended December 31,	General Obligation Bonds		Retirement Incentives and Other Pension Obligations		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2023	\$ 128,000	\$ 4,288	\$ 56,568	\$ 3,285	\$ 184,568	\$ 7,573
2024	-	-	28,053	1,342	28,053	1,342
2025	-	-	14,019	450	14,019	450
	<u>\$ 128,000</u>	<u>\$ 4,288</u>	<u>\$ 98,640</u>	<u>\$ 5,077</u>	<u>\$ 226,640</u>	<u>\$ 9,365</u>

The above general obligation bonds are direct obligations borrowings of the Town for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the Town.

Legal Debt Margin

The Town is subject to legal limitations on the amount of debt that it may issue. The Town’s legal debt margin is 7% of the five year average full valuation of taxable real property. At December 31, 2022, that amount was \$145,309,203. As of December 31, 2022, the total outstanding debt applicable to the limit was \$4,083,000, which is 2.8% of the total debt limit.

Note 3 - Detailed Notes on All Funds (Continued)

Pension Plans

New York State and Local Retirement System

The Town participates in the New York State and Local Employees' Retirement System ("ERS") and the New York State and Local Police and Fire Retirement System ("PFRS") which are collectively referred to as the New York State and Local Retirement System ("System"). These are cost-sharing, multiple-employer defined benefit pension plans. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund ("Fund"), which was established to hold all net assets and record changes in plan net position. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four year term. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law ("NYSRSSL"). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Town also participates in the Public Employees' Group Life Insurance Plan, which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The System is noncontributory except for employees who joined after July 27, 1976, who contribute 3% of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010, who generally contribute between 3% and 6% of their salary for their entire length of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31. The employer contribution rates for the plan's year ended March 31, 2023 are as follows:

	<u>Tier/Plan</u>	<u>Rate</u>
ERS	3 A15	12.9 %
	4 A15	12.9
	6 A15	8.1
PFRS	2 375I	19.6
	2 384D	29.0
	6 384D	20.2

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

At December 31, 2022, the Town reported the following for its proportionate share of the net pension liability (asset) for ERS and PFRS:

	<u>ERS</u>	<u>PFRS</u>
Measurement date	March 31, 2022	March 31, 2022
Net pension liability (asset)	\$ (524,367)	\$ 31,302
Town's proportion of the net pension liability	0.0064146%	0.0055104%
Change in proportion since the prior measurement date	(0.000662)%	(0.002606)%

The net pension liability (asset) was measured as of March 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability (asset) was based on a computation of the actuarially determined indexed present value of future compensation by employer relative to the total of all participating members.

For the year ended December 31, 2022, the Town recognized its proportionate share of pension expense in the government-wide financial statements of 242,708 for ERS and \$65,130 for PFRS. Pension expenditures of \$392,185 for ERS and \$70,895 for PFRS, inclusive of payments for retirement incentives and other pension obligations were recorded in the fund financial statements and were charged to the following funds:

	<u>ERS</u>	<u>PFRS</u>
General Fund	\$ 274,530	\$ 70,895
Highway Fund	117,655	-
	<u>\$ 392,185</u>	<u>\$ 70,895</u>

At December 31, 2022, the Town reported its proportionate share of deferred outflows and inflows of resources related to pensions from the following sources:

	<u>ERS</u>		<u>PFRS</u>		<u>Total</u>	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 39,711	\$ 51,507	\$ 16,875	\$ -	\$ 56,586	\$ 51,507
Net difference between projected and actual earnings on pension plan investments	-	1,717,081	-	263,015	-	1,980,096
Changes of assumptions	875,109	14,767	187,347	-	1,062,456	14,767
Changes in proportion and differences between Town contributions and proportionate share of contributions	234,656	35,721	116,973	65,182	351,629	100,903
Town contributions subsequent to the measurement date	146,618	-	22,453	-	169,071	-
	<u>\$ 1,296,094</u>	<u>\$ 1,819,076</u>	<u>\$ 343,648</u>	<u>\$ 328,197</u>	<u>\$ 1,639,742</u>	<u>\$ 2,147,273</u>

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
 December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

The \$146,618 and \$22,453 reported as deferred outflows of resources related to ERS and PFRS, respectively, result from the Town’s accrued contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended March 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ERS and PFRS will be recognized in pension expense as follows:

Year Ended March 31,	ERS	PFRS
2023	\$ (59,297)	\$ 6,291
2024	(141,622)	(5,669)
2025	(407,836)	(52,393)
2026	(60,845)	40,950
2027	-	3,819
	<u>\$ (669,600)</u>	<u>\$ (7,002)</u>

The total pension liability for the ERS and PFRS measurement date was determined by using an actuarial valuation date as noted below, with update procedures used to roll forward the total pension liabilities to that measurement date. Significant actuarial assumptions used in the valuation were as follows:

	ERS	PFRS
Measurement date	March 31, 2022	March 31, 2022
Actuarial valuation date	April 1, 2021	April 1, 2021
Investment rate of return	5.9%	5.9%
Salary scale	4.4%	6.2%
Inflation rate	2.7%	2.7%
Cost of living adjustments	1.4%	1.4%

*Compounded annually, net of pension plan investment expenses, including inflation.

Annuitant mortality rates are based on the System’s experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2020.

The actuarial assumptions used in the valuation are based on the results of an actuarial experience study for the period April 1, 2015 - March 31, 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized below.

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

<u>Asset Type</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	32 %	3.30 %
International Equity	15	5.85
Private Equity	10	6.50
Real Estate	9	5.00
Opportunistic / ARS Portfolio	3	4.10
Credit	4	3.78
Real Assets	3	5.80
Fixed Income	23	0.00
Cash	<u>1</u>	(1.00)
	<u>100 %</u>	

The real rate of return is net of the long-term inflation assumption of 2.7%.

The discount rate used to calculate the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 5.9%, as well as what the Town's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (4.9%) or 1 percentage point higher (6.9%) than the current rate:

	1% Decrease (4.9%)	Current Discount Rate (5.9%)	1% Increase (6.9%)
Town's proportionate share of the ERS net pension liability (Asset)	<u>\$ 1,349,714</u>	<u>\$ (524,367)</u>	<u>\$ (2,091,944)</u>
Town's proportionate share of the PFRS net pension liability (Asset)	<u>\$ 348,182</u>	<u>\$ 31,302</u>	<u>\$ (230,991)</u>

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

The components of the collective net pension liability (asset) as of the March 31, 2022 measurement date were as follows:

	ERS	PFRS	Total
Total pension liability	\$ 223,874,888,000	\$ 42,237,292,000	\$ 266,112,180,000
ERS fiduciary net position	232,049,473,000	41,669,250,000	273,718,723,000
Employers' net pension liability (asset)	<u>\$ (8,174,585,000)</u>	<u>\$ 568,042,000</u>	<u>\$ (7,606,543,000)</u>
ERS fiduciary net position as a percentage of total pension liability (asset)	<u>103.65%</u>	<u>98.66%</u>	<u>102.86%</u>

Employer contributions to ERS and PFRS are paid annually and cover the period through the end of the System's fiscal year, which is March 31st. Retirement contributions as of December 31, 2022 represent the employer contribution for the period of April 1, 2022 through December 31, 2022 based on prior year ERS and PFRS wages multiplied by the employers' contribution rate, by tier. Retirement contributions to ERS and PFRS for the nine months ended December 31, 2022 were \$142,618 and \$22,453, respectively.

Voluntary Defined Contribution Plan

The Town also offers a defined contribution plan to all non-union employees hired on or after July 1, 2013 with earnings at the annual full-time salary rate of \$75,000 or more. The employee contribution is between 3% and 6% depending on salary and the Town will contribute 8%. Employer contributions vest after 366 days of service. No current employees participated in this program.

Other Post-Employment Benefit ("OPEB")

In addition to providing pension benefits, the Town provides certain health care benefits for retired employees through a single employer defined benefit OPEB plan. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the Town may vary according to length of service. The cost of providing postemployment health care benefits is shared between the Town and the retired employee as noted below. Substantially all of the Town's employees may become eligible for those benefits if they reach normal retirement age while working for the Town. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions", so the net OPEB liability is equal to the total OPEB liability. Separate financial statements are not issued for the plan.

At December 31, 2022, the following employees were covered by the benefit terms:

Inactive employees currently receiving benefit payments	50
Active employees	<u>28</u>
	<u>78</u>

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

The Town's total OPEB liability of \$10,557,443 was measured as of December 31, 2022, and was determined by an actuarial valuation as of January 1, 2021.

The total OPEB liability in the January 1, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	2.00%
Discount rate	4.05%
Healthcare cost trend rates	4.50% for 2023, decreasing to an ultimate rate of 4.037% for 2075
Retirees' share of benefit-related costs	Varies from 0% to 100%, depending on applicable retirement year and bargaining unit

The discount rate was based on the Fidelity General Obligation 20-year AA Municipal Bond Index.

Mortality rates were based on the sex-distinct Pub-2010 Public Retirement Plans Mortality Tables for employees and healthy annuitants and then adjusted for mortality improvements with scale MP-2021 mortality improvement scale on a fully generational basis.

The actuarial assumptions used in the January 1, 2021 valuation for turnover and retirement for ERS and PFRS were based on the April 1, 2015 to March 31, 2020 experience study released by the Retirement Systems Actuary and published in their August 2020 report.

The Town's change in the total OPEB liability for the year ended December 31, 2022 is as follows:

Total OPEB Liability - Beginning of Year	\$ 14,218,192
Service cost	286,707
Interest	263,627
Changes of benefit terms	-
Differences between expected and actual experience	-
Changes in assumptions or other inputs	(3,856,407)
Benefit payments	<u>(354,676)</u>
Total OPEB Liability - End of Year	<u>\$ 10,557,443</u>

The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.05%) or 1 percentage point higher (5.05%) than the current discount rate:

	1% Decrease (3.05%)	Current Discount Rate (4.05%)	1% Increase (5.05%)
Total OPEB Liability	<u>\$ 12,074,688</u>	<u>\$ 10,557,443</u>	<u>\$ 9,312,899</u>

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

The following presents the total OPEB liability of the Town, as well as what the Town's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (3.5% decreasing to 3.037%) or 1 percentage point higher (5.5% decreasing to 5.037%) than the current healthcare cost trend rates:

	1% Decrease 3.5% decreasing to 3.037%)	Current Healthcare Cost Trend Rates (4.5% decreasing to 4.037%)	1% Increase (5.5% decreasing to 5.037%)
Total OPEB Liability	<u>\$ 9,088,198</u>	<u>\$ 10,557,443</u>	<u>\$ 12,370,792</u>

For the year ended December 31, 2022, the Town recognized OPEB expense of (\$806,608) in the government-wide financial statements. At December 31, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes of assumptions or other inputs	\$ 646,419	\$ 2,989,799
Differences between expected and actual experience	<u>-</u>	<u>2,058,244</u>
	<u>\$ 646,419</u>	<u>\$ 5,048,043</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended December 31,</u>	
2023	\$ (1,324,482)
2024	(1,490,541)
2025	(1,196,626)
2026	<u>(389,975)</u>
	<u>\$ (4,401,624)</u>

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
 December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

F. Interfund Transfers

Interfund transfers are defined as the flow of assets, such as cash or goods and services, without the equivalent flow of assets in return. The interfund transfers reflected below have been reflected as transfers:

<u>Transfers Out</u>	Transfers In		<u>Total</u>
	<u>Highway Fund</u>	<u>Capital Projects Fund</u>	
General Fund	\$ 40,000	\$ 250,000	\$ 290,000
Highway Fund	-	225,000	225,000
	<u>\$ 40,000</u>	<u>\$ 475,000</u>	<u>\$ 515,000</u>

Transfers are used to move amounts earmarked in the operating funds to fulfill commitments for Capital Projects Fund expenditures.

G. Net Position

The components of net position are detailed below:

Net Investment in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Restricted for Open Space - the component of net position that is established pursuant to New York State law. These amounts represents funds received from the real property taxes and may be used only for the acquisition of land with the Town.

Restricted for Special Revenue Funds - the component of net position that represents funds restricted for specific purposes under New York State law or by external parties and/or statutes.

Unrestricted - all other amounts that do not meet the definition of "restricted" or "net investment in capital assets".

Town of Pound Ridge, New York

Town of Pound Ridge, New York

Notes to Financial Statements (Continued)
December 31, 2022

Note 3 - Detailed Notes on All Funds (Continued)

Certain elements of fund balance are described above. Those additional elements, which are not reflected in the Statement of Net Position but are reported in the governmental funds balance sheet are described below.

Prepaid Expenditures has been established to account for costs paid in advance. The amount is classified as nonspendable to indicate that funds are not "available" for appropriation or expenditure even though they are a component of current assets.

Subsequent years' expenditures represent that at December 31, 2022, the Town Board has assigned the above amounts to be appropriated for the ensuing year's budget. The amount assigned for subsequent year's expenditures in the Highway Fund of \$100,000 has been limited to \$-0- as it exceeded the fund balance available.

Unassigned fund balance in the General Fund represents amounts not classified as nonspendable, restricted or assigned. Unassigned fund balance in the Capital Projects Fund and Highway Fund represents the deficit in the funds.

Note 4 - Summary Disclosure of Significant Contingencies

A. Litigation

The Town, in common with other municipalities, receives numerous notices of claims for money damages occurring from false arrest, property damage or personal injury. All the claims currently pending have been referred to the insurance carrier and none are expected to have a material effect on the Town's financial position, if adversely settled.

There are also currently pending certiorari proceedings, the results of which could require the payment of future tax refunds by the Town if existing assessment rolls are modified based upon the outcome of the litigation proceedings. However, the amount of possible refunds cannot be determined at the present time and any refunds resulting from adverse settlements will be funded in the year in which the payments are made.

B. Risk Management

The Town purchases conventional insurance coverages to reduce its exposure to loss. The Town maintains general liability coverage up to \$3 million, public officials' liability and police professional liability policies each provide coverage up to \$2 million. The Town also maintains an umbrella policy which provides coverage up to \$30 million. Workers' compensation coverage is secured at statutory levels. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years. The Town purchases conventional health insurance from various providers.

C. Contingencies

The Town participates in various Federal grant programs. These programs may be subject to program compliance audits pursuant to the Single Audit Act. Accordingly, the Town's compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Town anticipates such amounts, if any, to be immaterial.

Town of Pound Ridge, New York

Notes to Financial Statements (Concluded)
December 31, 2022

Note 5 - Subsequent Events

The Town in June 2023 issued a new \$3,580,000 bond anticipation with interest at 6.34% due in June 2024 to renew in part, the \$3,955,000 bond anticipation renewal note maturing in June 2023, with the balance of \$375,000 payable from available funds. In June 2024 the Town issued a \$3,480,000 bond anticipation renewal note with interest at 5.02% due in June 2025, to renew in part, the \$3,580,000 bond anticipation renewal note maturing in June 2024 along with \$350,000 payable from available funds and providing new money in the amount of \$250,000.

Note 6 - Recently Issued GASB Pronouncements

GASB Statement No. 96, "*Subscription-Based Information Technology Arrangements*" provides guidance on the accounting and financial reporting for subscription-based information technology arrangements ("SBITAs") for government end users. This Statement defines a SBITA and establishes that a SBITA results in a right-to-use subscription asset (intangible asset) and a corresponding liability. The Statement also provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA, as well as detailing the requirements for note disclosures regarding a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

GASB Statement No. 101, "*Compensated Absences*", provides guidance on the accounting and financial reporting for compensated absences. This objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2023.

GASB Statement No. 102, "*Certain Risk Disclosures*" provides *guidance* related to a government's vulnerabilities due to certain concentrations or constraints. A concentration is defined as a lack of diversity related to an aspect of a significant inflow of resources or outflow of resources. A constraint is a limitation imposed on a government by an external party or by formal action of the government's highest level of decision-making authority. Concentrations and constraints may limit a government's ability to acquire resources or control spending. The requirements of this Statement are effective for reporting periods beginning after June 15, 2024.

GASB Statement No. 103, "*Financial Reporting Model Improvements*", has been issued to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for reporting periods beginning after June 15, 2025.

This is not an all-inclusive list of recently issued GASB pronouncements but rather a listing of Statements that the Town believes will most impact its financial statements. The Town will evaluate the impact this and other pronouncements may have on its financial statements and will implement them as applicable and when material.

* Discount Rate	<u>4.05%</u>	<u>1.84%</u>	<u>2.00%</u>

(1) Data not available prior to fiscal year 2018 implementation of Governmental Accounting Standards Board Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions".

(2) No assets are accumulated in a trust that meets the criteria in paragraph 4 of this Statement to pay related benefits.

(3) Restated for the implementation of the provisions of GASB Statement No. 75.

(4) The annual rate of increase in healthcare costs was revised based on the SOA Long-Term Healthcare Cost Trends Model 2022 (Getzen model) which increased the liability. The terms of the substantive plan were revised to reflect the restated summary plan description whereby the coordination with medicare method was changed from coordination of benefits to the exclusion method. This resulted in a substantial decrease in the liability.

(5) The annual rate of increase in healthcare costs was revised based on the SOA Long-Term Healthcare Cost Trends Model 2023 (Getzen model). The revised assumption resulted in an increase in the liability, offset by the increase in the discount rate which reduced the liability.

See independent auditors' report.
